PILBARA

Regional Development Australia Pilbara is pleased to present the West Pilbara Children and Families Community Directory 2021 edition.

This Directory provides a brief description of and contact details for organisations, government agencies and Aboriginal Corporations who deliver services and support for children and families in the West Pilbara.

Publishing this Directory has been made possible through funding from the West Pilbara Communities for Children (WPC4C) Initiative. The WPC4C Initiative is funded by the Australian Government Department of Social Services, through the Families and Children Activity. The objective of the WPC4C Initiative is to improve the health and wellbeing of families and the development of young children from birth through to 12 years of age.

Regional Development Australia Pilbara, as facilitating partner for the WPC4C Initiative, funds local community partners to deliver programmes that are aimed at creating child-friendly communities, healthy young families, supporting family and parents, early learning and school transition and engagement. The WPC4C Initiative has a strong focus on evidence-based programmes and supports early intervention and prevention service delivery for vulnerable and at-risk children.
